**INSTRUCTION BOOKLET**

**WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.**

**IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES**

**WARNING - Seizures**

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

**Convulsions  
Altered vision**

**Eye or muscle twitching  
Involuntary movements**

**Loss of awareness  
Disorientation**

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

## **WARNING - Repetitive Motion Injuries**

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

## **WARNING - Battery Leakage**

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

# PRACTICE

If you're having a problem with any of the songs in *Dance!* you can practice those songs here.

## *Song Selection*

Press **←** or **→** on the **Control Pad** to cycle through the CDs. Press the **A Button** to select the highlighted song, or the **B Button** to return to the previous menu.

**Level Rank** This shows the current rank you've gotten at each difficulty level for the highlighted song. No grade appears if you haven't yet "beaten" the song at that level.

**Pattern selection** Once you've selected your song, you'll choose the pattern setting, from *Easy* up to *Extreme*. *Easy* patterns are less complex, while more difficult patterns are more complicated and use more buttons. In the beginning, only the *Easy* patterns are available. You must unlock the others in *Dance!* mode.

**TIP:** You can unlock certain *Extras* in *Practice* mode by getting "A" ranks.

## PLAYING

### *Dance Basics*

The object of both *Practice* and *Dance!* modes is to press the button matching the falling button symbol just as it lines up with the target at the bottom right of the screen. Each time you do this right, you earn points and the meter in the middle of the screen goes up. You get more

points for pressing the correct button exactly when the button icon lines up with the target, and fewer points for being early or late. Each

time you press the wrong button or your timing is way off, the meter will fall. If the meter reaches the bottom, you've missed too many: *Game Over!* When the meter is green, you're doing great!

## DANCE!

In *Dance!* mode, you try to beat ALL the song challenges as they are presented. Once you master a series at one level, you can compete at a *Higher Level*.

You'll advance to the *Dance Series* select screen, which shows various song sets for the selected difficulty level. Press **↑** or **↓**

on the **Control Pad** to select a list, then press the **A Button** to begin play or press the **B Button** to cancel and go back to the *Main Menu*. Once you've danced successfully to a particular song at one skill level, you can go back and try it at a harder level. The idea is to get a passing grade for a song at every skill level, which helps you unlock bonus outfits, tracks and more.

You must complete each set to go on to the next set, and you must beat each set.

## Unlocking Items

You unlock items by getting a passing rank or better in *Dance!* mode. The higher your rank, the more items you unlock. Once you unlock items, they are available in *Practice* mode, too. You can unlock clothes, songs, different dance animations and more. You can review the items you've unlocked after the set is over.

## Scoring/Results

At the end of a session, your score is totaled and you'll receive a rank based on your performance. Any items you've unlocked will be displayed. You need a B rank or better to "pass". If you didn't pass, you can go back and try again until you do. Whether you pass or not, press the

**A Button** to see a results screen which gives a complete break out of your session.

**TIP:** Earn a special cool slow motion effect as a reward for getting enough consecutive Perfects during gameplay!

## MIX

Mix allows you to create your own mad mixes then enjoy them while watching a full screen dance video. You can create up to three different mixes, each with up to five songs.

First, you need to choose your mix. The first time you come to the *Choose Your Mix* screen, you will see three empty disc slots. Select a slot and press the **A Button**.

A menu will pop up on the right of the screen, with four mix functions: *Play*, *Edit*, *Delete* and *Cancel*.

Press **↑** or **↓** on the **Control Pad** to highlight a function, then press the **A Button** to use that function.

- Play** Once you've created a mix, select Play to dig some dizzy dancing.
- Edit** *Edit* mode is where you create a new mix, or edit an existing one.
- Delete** Use the *Delete* function to clear the currently collected mix slot. You will be asked to confirm your delete.
- Cancel** Use *Cancel* to exit the pop up mix menu and return to the *Choose Mix* function.

## ***Creating or Editing a Mix***

In *Edit* mode, there are four main functions. Highlight an item and press the **A Button** to access it.

- Name** Like you, your mix must have a name. Use the **Control Pad** to highlight a character and press the **A Button** to input the character. Use the back arrow to backspace or delete and the

forward arrow to space. Pressing the **B Button** will go back over a character. When you're happy with the name, highlight **END** and press the **A Button** to return to the edit screen.

**Location** Press **←** or **→** on the **Control Pad** to choose from the five great *Locations*.

**Songs** There are five possible *Song* slots you can fill (your mix must have at least one song). Highlight a *Song* slot and press the **A Button**. You will come to the *Song Select* screen. Choose a song and press the **A Button**. You will return to the *Songs* menu. You can select more slots and select songs for them, or move on.

**Label** Press **←** or **→** on the **Control Pad** to pick a fantastic graphic for the CD label. It's fun! Choose a design you like.

Once you've created a mix, you will be asked if you want to save it. Confirm your wishes and press the **A Button**.

While a Mix is playing, you can press **START** to pause the game. From the pause menu, you can press **SELECT** to quit the current *Mix* session and return to the *Choose Your Mix* screen.

# JAM

*Jam* mode lets you jam along with any of the tracks in the game, and to save one completed jam. You will be amazed at how talented you are! Once you select *Jam*, you will go to the *Jam* menu, which works much like the *Mix* menu but with these exclusive *Jam* functions:

## Sample Group

Press the **A Button** to access the *Sample Groups* available. *Samples* are short bits of sound, such as words, notes, scratching sounds, and each is assigned to a different control. Press the **L** or **R Button** to cycle through the various sample groups and try all the different sounds. When you find the sound group you want to use, press **START** to return to the *Jam* menu.

## L/R Effect

**Pitch or Pan** You can choose to have the **L Button** and **R Button** perform different functions in *Jam* mode. If you select *Pitch*, holding down the **L Button** while pressing a sample button will raise the pitch, while pressing the **R Button** will lower the pitch. If you choose *Pan*, holding the **L Button** or **R Button** while playing a

sample will move the stereo positioning left or right. It rocks with headphones!

So, you've chosen your song and sample group and made your other choices? The only thing left to do is get jamming!

You will come to a screen with two turntables with the **A** and **B Buttons** and the **Control Pad** in the middle. You'll see a red meter in the bottom center of the screen. As your selected jam song plays, press any **Control Pad** direction or the **A** or **B Buttons** to jam with the track. When the meter is empty, your jam is over and you'll return to the *Jam* screen. You can then save your jam. Once a jam is saved, selecting it will bring up a window with these choices:

**Watch** As your character dances to your jam, the button presses play on the right.

**Mix** Listen to your jam.

**Dance!** You can bring your jam into *Dance!* mode and play against it, so it's like designing your own game pattern! Your pattern of jam button presses becomes the pattern of falling button symbols. At the end, you even get a letter rank. Awesome!

# CLOSET

The closet is where you can select an outfit and change hairstyles. Mary-Kate and Ashley each have different closets with different items. You begin play with a great selection of items, but a girl can always use more outfits! As you progress through *Dance!* mode, you'll unlock different items by

getting a high rank. Once you do, unlocked closet items are displayed on screen, and are available for you to try on by pressing the **A Button**. Those items will then be available in your closet. Press **↑** or **↓** on the **Control Pad** to move the highlight to one of the four selection tiers (*Hair, Top, Bottom, Footwear*), then press **←** or **→** on the **Control Pad** to cycle through the available choices for each tier. When an item is highlighted, pressing the **L** or **R Button** will change the item color. When you're happy with your look, press the **B Button** to return to the *Main Menu*. You look lovely!

# PAUSE MENU

To pause the game during play, press **START**. Press **START** again to resume (unpause) the game, or press **SELECT** to quit. If you quit, you will return to the select screen for that mode.
